

Positioning the Australian Extractive Industry as Africa's Partner of Choice

Who we are

The Australia-Africa Mining Industry Group (AAMIG) is the leading member association supporting the Australian extractive industry operating in Africa. AAMIG facilitates the sharing of knowledge and experience to create better outcomes on the ground. We partner with Australian and African Governments to encourage productive engagement and AAMIG actively promotes the value of responsible corporate citizenship.

By promoting adherence to best-practice guiding principles and building alliances among member companies, Australian and African Governments, NGOs and academia, we are positioning the Australian extractive industry in Africa as a desirable and socially responsible global investor.

Trish O'Reilly – CEO, AAMIG
